

New Mexico remains the Land of Enchantment because of its vast frontier areas, regions with low populations & far removed from access to specialty services found in urban areas. Frontier residents face challenges with access to health care, increase health risk factors, and access to healthy foods.

The National Center for Frontier Communities has pinpointed specific legislative and policy issues that can positively impact the lives of residents in New Mexico.

Support HB194 & SB102 to study factors supporting economic investment in New Mexico's frontier communities.

Improve access to health care for our most remote communities. Support the Health Security Act (HB295 & SB279) and Medicaid Buy-In.

Support County and Tribal Health Councils (HB67 & HB137)

Support Fresh Fruits & Vegetables for School Meals (SB115)

Please support:

- NM Food & Agriculture Education Grant Program (HB125)
- Senior Farmers' Market Nutrition & Senior Center Pilot Programs (SB83)
- Fruits & Vegetables for Seniors Centers (SB84)
- NM Farmers' Markets
