

Frontier Areas and Percent of Population in Poverty 2010

Revised: June 26, 2012

Notes: Instead of Counties, California uses Medical Service Study Areas, Hawaii uses sub-county areas, and Arizona uses RUCAs; state offices of rural health designated frontier areas in 2012 using US Census data from 2010; scale bar is correct for all 50 states; US Poverty rate was 15.3% in 2010

Half of Frontier Areas have a higher poverty rate than the US Average

Legend

Percent of Population in Poverty

Light Green: Less than USA Average of 15.3%

Dark Green: Greater than USA Average of 15.3%
